INDIAN MBBS STUDENTS IN ABROAD

Medical education still remains to be a dream for many students in India due to its high cost and rigorous academic competitions. There are many international students from around the world, including Russia, India, Europe and Africa, who have made the decision to study in Russia. This is not surprising since standard of higher education meets the same standard as in Western countries to give them an enriching foundation for their future. The student teacher ratio is 10:1 and individual attention is given to each and every student. It is very unique because nowhere in India we have the kind of facilities.

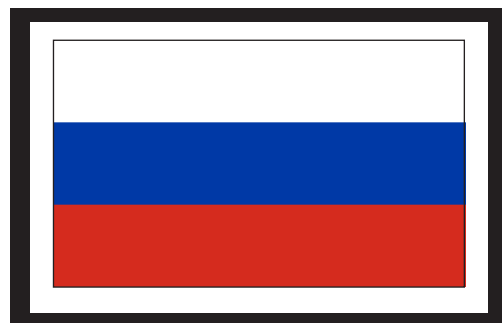

The admission procedure is simple, there is no entrance exams and cutoff marks, there is no reservation policy on the basis of caste, creed and color. The students will have just to fulfill the basic eligibility criteria. Moreover payment for medical seat alone in India would cost as close to Rs. 25 lakh, apart from the Tuition fees which is around 5 lakhs per year excluding accommodation. In Abroad the cost of medical education starts from Rs. 1.70 lakh per year that includes tuition fees, furnished hostel accommodation and study materials.

Universities in Abroad integrate the academic, residential and co-curricular spheres of students' lives, linking the out-of-class experience to the academic mission and incorporation students intellectual, public service, and leadership in interests with student's future aspiration.

TABILISI STATE MEDIAL UNIVERSITY

The origin of the idea of creating a higher educational institution in Orel for the first time date back to the era of the First World War, when the intelligentsia of the provincial center, developing the initiative of the Ministry of Industry and Trade of 1916, in January-March 1917 created a "commission for the organization of a people's university - polytechnic." In May of the same year, the issue of its creation was discussed by the Orvol city commission for public education. The result of the work was a report submitted on September 7, 1918 to the Provincial Executive Committee, which contained a conclusion about the need to create a university in Orel with a set of classical faculties

However talking about the creation in Orel a full fledged state university with classic facilities, on dated June 1919 Oral state university with proper services. Orel State University is located in the city OREL, distance between Moscow and Orel is 325 kilometers. Orel State University is unique in many aspects. Orel State University is the only classical university which is the member of the association of classical universities of the Russian Federation and the only educational institution in the region, which provide training on a wide range of areas and specialities of higher and postgraduate education, training, retraining. Orel State University is the only institution that gives professionals in the area of most humane professions like doctors and teachers. Currently, Orel State University implements 110 basic educational programs of higher education in large groups of 14 training areas and specialities. Today University is the successor of the best tradition of Russian medical education. At present the Orel Medical Institute has 17 department's which employ more than 100 full-time teachers, of whom more than 30 Doctors Professors, 77 Associate Professors 3 Honoured scientist of the Russian Federation, 8 Honoured Doctors of the Russian Federation, 12 Academicians and 11 Corresponding Members of various Public Academies. Clinical bases of the Institute are leading Medical Diagnostic and Medical; Institutions of the City of Orel and Orel region: Regional Hospital, Children's Regional Hospital, City Emergency Hospital.

VOLGOGRAD STATE MEDICAL UNIVERSITY

NATIONAL RESEARCH LOBACHEVSKY UNIVERSITY

RUSSIA

World Ranking AIIMS : 873 | Lobachevsky Med. University.: 601

MRS MEDITECH Official Representative

National Research
Lobachevsky Medical University

English Medium | Govt. University | RESEARCH CENTRE

Lobachevsky State University of Nizhny Novgorod (UNN) was founded in 1916 as People's University of Russia. On January 30 (January 17 in the old calendar) we celebrate our Foundation Day. Our university was the first higher education institution in Nizhny Novgorod. After the merger with Polytechnic Institute evacuated from Warsaw, the University was given a status of 'State University'. Thus UNN became the first university established in the Soviet state. The first university of Nizhny Novgorod laid the foundations for the development of the system of higher education institutions in the city. In 1930, six institutes resulted from the transformation of some faculties of State University of Nizhny Novgorod. There were Institute of Mechanical Engineering, Chemical Institute, Teachers Training Institute ('Pedagogical Institute'), Agricultural Institute, Construction Institute and Medical Institute. In 1932, UNN comprised faculties of Physics, Mechanics, Zoology, Botany, Chemistry and Mathematics. By mid - 20th century, Lobachevsky State University was a research and educational hub, consisting of world-renowned scientific schools of the Theory of Oscillations, Crystallography, Radio physics, Metal-Organic Chemistry, Chemistry of High-Purity Substances, Theory of Functions, Theory of Dynamic Systems, and Population Genetics. The laboratories of UNN served as the initial basis for the foundation of Nizhny Novgorod Institutes of Russian Academy of Sciences. By that time, there had been significant achievements in the humanities – UNN philologists were actively engaged in researching into language styles and styles of speech as well as folklore and the literary works of famous Russian poet Alexander Pushkin, which were created during his stay in Nizhny Novgorod region. UNN established large research institutes: Research Institute for Physics and Technology, Research Institute for Chemistry, Research Institute for Radiophysics, Research Institute for Mechanics, Research Institute for Applied Mathematics and Cybernetics, Research Institute for Molecular Biology and Regional Ecology, Research Institute of Living Systems, Research Botanical Garden, and Research Institute for Strategic Studies.

BASHKIR STATE MEDICAL UNIVERSITY, RUSSIA

Bashkir State Medical University

**Dr. S S Saini
(MD & CEO)**

MRS MEDITECH Official Representative

English Medium | Govt. University | Est. in 1932

Bashkir State Medical University is the flagship of medical and pharmaceutical science and education of the Republic of Bashkortostan and occupies a leading position in many criteria in the country. To the till date, more than ten thousand students, about two thousand residents from all over Russia, near and far abroad study at the university. The uniqueness of the Bashkir State Medical University lies in the presence of its own clinic, on the basis of which the medical, educational and scientific processes are carried out in an inseparable unity. 2 academicians of the Russian Academy of Sciences, 1 corresponding member of the Russian Academy of Sciences, 10 academicians and corresponding members of the Academy of Sciences of the Republic of Bashkortostan, 269 doctors and 748 candidates of sciences work at the university.

The Federal State Budgetary Educational Institution of Higher Education "Bashkir State Medical University" of the Ministry of Health of the Russian Federation (hereinafter referred to as the University) was founded on March 25, 1932. Our students and researchers can choose from Undergraduate, Graduate, Postgraduate and Residency programmes in General Medicine, Preventive Medicine, Clinical Medicine, Dentistry, Pharmacy, Nursing, Social Work and Clinical Psychology.

IMMANUEL KANT BALTIC FEDERAL UNIVERSITY

Immanuel Kant Baltic Federal University is a public research university located in the exclave of Kaliningrad, Russia. It is the oldest university in the Kaliningrad region, formed on the land of the former East Prussia and in Europe. It was originally known as the University of Königsberg, which was founded in 1544.

It was known as the University of Königsberg (Albertina), which was founded in 1544. Also, this higher educational institution is also known for the fact that one of its graduates is one of the most outstanding European philosophers — **Immanuel Kant**. It was East Prussia's sole university and was specially regarded for its mathematics and astronomy. The campus was severely damaged by British aerial bombing in August 1944 during World War II.

Immanuel Kant Baltic Federal University remembers its continuity from the Königsberg University ("Albertina") and considers it its predecessor. After the war, Königsberg was renamed Kaliningrad and the Russophone Kaliningrad State Pedagogical Institute used the old campus from 1948 to 1967, including the main Albertina building inaugurated in 1862. In 1967, the institute received the status of a university and became known as Kaliningrad State University. In 2005, during the celebrations of the 750th anniversary of the founding of Königsberg, President Vladimir Putin of Russia and Chancellor Gerhard Schröder of Germany announced that the university would be renamed Immanuel Kant Russian State University in honour of Immanuel Kant.

In 2010–2011, the university underwent an enlargement and rebranding process which will lead to changing its name from Immanuel Kant Russian State University to Immanuel Kant Baltic Federal University.

TVER STATE MEDICAL UNIVERSITY, RUSSIA

Tver State Medical University was established in 1936 and is thus one of the oldest and prominent medical educational institutions in Russia. At present, the university has more than 600+ students from India pursuing their medical studies. Tver State Medical University has played a major role in medical science. The excellent medical education helps this university to hold a good rank among the top 10 notch medical institutions in Russia. According to the WHO International rating, Tver State Medical University was ranked on the 23rd position globally and on the 3rd position within Russia in the list of the Best Medical Studies for foreign students.

KAZAN FEDERAL MEDICAL UNIVERSITY, RUSSIA

Federal State Autonomous Educational Institution of Higher Education "Kazan (Volga Region) Federal University" Established in 1804, Kazan University is engaged in various forms of International co-operation with 245 joint partners from 58 countries. Over 52,000 students enrolled in all types of programs, about 11,500 International students from 101 countries, over 8,000 employees, including over 4,000 teaching and research staff, 18 educational units in the central campus, 3 territorial campuses, 3 secondary schools. CHECHAN STATE MEDICAL UNIVERSITY

Chechen State University is a university located in Grozny, Chechnya, Russia. The school is home to the North Caucasian Centre of Pedagogics. The university traces its roots back to 1938.

Chechen State University dates back to 7 February 1938 when Grozny Teacher Training Institute was founded with a two-year study period. The Institute was reorganized into Chechen-Ingush State University on March 9, 1971 and the new place received the name of Lev Nikolayevich Tolstoy. On 28 February 1995, Chechen-Ingush State University named after Lev Nikolayevich Tolstoy was renamed into Chechen State University. Later in 2011 the University transformed into the Federal State Budgetary Educational Institution of Higher Professional Education "Chechen State University".

Currently around 15,000 full-time and part-time students are receiving education at the Federal State Budgetary Educational Institution of Higher Education "Chechen State University" and 10 Faculties and four Institutes leading the learning process. Special attention is paid to expanding our partnership links with universities and other institutions. Chechen State University is actively cooperating with Moscow Physics and Technology Institute (MPHTI), Moscow State Mechanical Engineering University (MSMEU), Rostov State Economics University, Pskov State University, Mari State University.

However, our University has established cooperation links not only with leading universities within Russia but far across its borders too. The University is a member of the Association of Azerbaijani-Russian Universities, collaborates with Science Academy of Georgia and Tbilisi State University, German universities of Vechta, Rostock and Neubrandenburg.

Thanks to the Scholarship Program of Head of the Chechen Republic for training young specialists abroad, students of the Republic's universities had an opportunity to gain knowledge and experience at best universities of Great Britain and Germany. Graduates of the Program are now successfully employed at Chechen State University bringing fresh perspectives and new skills to the teaching process.

DAGESTAN STATE MEDICAL UNIVERSITY, RUSSIA

Dagestan State Medical University was founded in 1932. This University is situated in the Makhachkala City which is the capital of Dagestan Republic.

In 2017, there comes the 85th anniversary of Dagestan State Medical University. This age is considered to be the age of maturity and wisdom, of the covered way realization and its further progress. So much trouble and experiences should those people, who were at the forefront of our wonderful institution, have had! But they endured all the difficulties and succeeded in the opening of Dagestan Medical Institute. Here are some names of them: Muslim Yusupovich Nakhibashev, Omar Aliyevich Bairashevsky, Khadzhi Omarovich Bulach, Georgy Pavlovich Rudnev, Yakov Grigorievich Savitsky, Petr Aristarkhovich Mavrodiadi, Anatoly Viktorovich Rossov and others.

In 1932 the Council of People's Commissars adopted a historic resolution of Dagestan State Medical Institute foundation in order to prepare the medical staff for Dagestan itself and other North Caucasus republics. Special attention was paid to the medical staff training of the indigenous republic nationalities. Initially, Dagestan State Medical Institute had the limited theoretical and clinical base and the only department of general medicine.

Currently, more than 5,000 students study at the university, among them there are more than 100 foreign students from 12 countries. Over 1,700 doctors annually improve their skills at the Faculty of Advanced Medical.

Establishment of the Georgian American University : The demand in Tbilisi for a truly western University was so pronounced that despite the fact that at that time there were already two international business schools in operation, the interest in a program offering joint programs in Business and Law was substantial enough to move forward with the opening of a Business School and Law School at the Georgian American University in 2005.

In February 2005, a joint limited liability company of American and Georgian investors was formed. This dedicated group and its Board of Directors established financial and operational management standards which aligned with the strict international, ethical & educational standards necessary. This group of investors possessed a wide array of knowledge and experience such as:

- Experience with the United States, Georgian and International Law;
- Experience with the United States, Georgian and International Business, Banking, Finance and Management sectors;
- Public relations in Georgia and Internationally;
- Experience with the United States, Georgian and International education systems; and
- Experience with the United States government.

GEORGIAN NATIONAL UNIVERSITY (SEU), GEORGIA

OFFICIAL REPRESENTATIVE

SEU
GEORGIAN NATIONAL UNIVERSITY
(GEORGIA)

The Georgian National University - SEU was founded on behalf of Ilia Chavchavadze in 2001. It existed over 20 years and is situated amidst the New Ultra-Modern Infrastructure of the College of Medicine. This biggest and one of the most prestigious Medical College is located in the core of Tbilisi - The Mega and Georgia's Most Pleasant Capital City. The place will surely capture the heart of students. SEU is an elite category University, being accredited by two principal accrediting bodies that operate in Georgia and Europe.

“Georgian National University - SEU is one of the most-in-demand University in Georgian educational spheres”, according to the United National Examinations and Mobility Survey.

“I have not seen such advanced Medical Infra-Structure used for teaching in any medical universities other than Georgian National University - SEU in the Entire Europe”, says Dr. Smith Jones, an expert and renowned authority in Quality Medical Education.

This University is spread across 85000 square meters (21 Acres). An investment of 25 Million US Dollars (200 Crores) in the Educational Infrastructure, has Well - Established International Standard Medical facilities like Robotic-Surgical training medical equipment's, 3D Anatomage & Cadavers, Simulated Mannequin Station, Team Learning Center (TLC), Ultra-Modern Library, Most Advanced Research Center, Simulation Center, High-Tech Laboratories and Highly Advanced Student Reading Room.

EAST EUROPEAN UNIVERSITY (EEU), GEORGIA

The East European University or EEU, as popularly known, is one of the most renowned universities in Georgia for medical studies. The University was established in the year 2012 and is situated in the capital city of Tbilisi. The University has a country rank of 30 and a world rank of 11,370 and is considered as one of the best Universities to study MBBS for medical aspirants from India. Apart from offering a foreign degree the MBBS from EEU is also recognized by MCI or the Medical Council of India.

The cost of studies is much lesser in comparison to the private medical colleges in India. Apart from these, there are other reasons also which influences a student to join EEU and they are:-

- The medium of instruction is English.
- The course duration is of 6 years wherein the first five years are for gaining technical and practical knowledge whereas the final year is for mandatory Internship.
- The University offers state-of-the-art infrastructure and laboratory facilities with the latest technology and world-class education.
- Students do not have to appear for any entrance test.
- Indian Food is available – both veg and non-veg
- EEU has a very high ranking in the country.
- The University does not ask for any donation or capitation fee.
- After passing MBBS from Georgia a mandatory screening test (Exit Exam) is to be appeared by the students to practice in India. Coaching for clearing the screening test is offered by highly experienced professors of AIIMS reputed right from the first year till the end of the program. This training helps the students to clear the exams easily.
- Hostel facilities are available.
- Transportation and the cost of living is quite affordable.
- The students of this University can take advantage of the student exchange program with Europe, Canada, The USA and Australia.

TASHKENT STATE UNIVERSITY, UZBEKISTAN

FIRST TASHKENT STATE MEDICAL INSTITUTE, UZBEKISTAN

On April 13, 1919, a decision was made to establish a medical faculty within Turkestan State University.

On September 17, 1919, Professor P.P. Sitnovsky was elected Dean of Medicine at the first academic council of Turkestan State University.

On September 7, 1920, a document was signed on the establishment of the Turkestan Medical University. The university also included a medical faculty.

Since 1921, the medical faculty began to train doctors.

The years 1919-1921 were the organizational period of the faculty, when the material base of the faculty was created.

In the following periods, the faculty was headed by Prof. K.G. Khrushchev (1921-1924) and M.I.S. Lonmin (1924-1926). During these periods, the material and technical base of the faculty was significantly improved, and classes in clinical departments were improved. In order to improve the quality and efficiency of education, Prof. N.I. Ragoz (internal and infectious diseases), A.N. Murzin (eye diseases), I.S. Milman (skin and venereal diseases), N.I. Osinovsky (children's diseases), S.A. Molchanov (radiology), G.N. Terekhov (pathological anatomy), G.I. Lin (operative surgery), S.E. Simmerman (normal anatomy), M.S. Astrov (faculty surgery), D.A. V. Vedensky (urology) were invited to the scientific and pedagogical staff. In 1922, 27 students graduated from the medical faculty.

In 1923, 973 students studied at the medical faculty, most of whom (425) were girls. The deans of the faculty, PF Borovsky (1926-1928), NIR Ragoza (1928-1929) and GP Fedorov (1929-1931), made a great contribution to the development of the faculty.

ASFENDIYAROV KAZAKH NATIONAL MEDICAL UNIVERSITY (KAZAKHSTAN)
